- **The purpose of my multigenre paper will be to:**
  - Inform
  - Persuade

I understand that my completed research project is due Tuesday, September 30, 2008. I understand I need to use my library time wisely that I am given each day and ask for help when I need it. I understand I may need to work on this outside of class time if needed. I understand that all work should be my own. I understand that I must meet all project requirements in order to achieve a successful learning experience and satisfactory evaluation on the project/paper.
